## Union Leaders Threaten To Extend Textile Walkout To All Branches Of Industry

## U. S.-SPANISH TRADE TREATY IS PLANNED

## German Proposal For Pact Is Frowned Upon

**By Richard L. Turner**  
Associated Press Staff Writer  
Washington, Sept. 17.—(P)—Martial law gripped Georgia's strike centers tonight as southern textile manufacturers succeeded in reopening a score of mills and labor countered with a threat to extend the walkout to all branches of the cloth-making industry.

The tense dispute between union officials and Hugh S. Johnson, NRA head, meanwhile approached a showdown. Eleven members of the silk code authority today voted unanimously to petition for an open NRA hearing in an effort to settle the strike in that division of textiles.

Labor leaders, however, clung steadfastly to their assertion they would participate in no proceedings under NRA so long as Johnson, who last week accused them of violating a show-down. Washington, Sept. 17.—(P)—The state department extended to Spain today an invitation to negotiate a reciprocal trade agreement, but simultaneously frowned upon a general proposed beer-for-cotton bartering pact.

Hearings were set for November 12 on the project's treaty with Spain, designed to reduce trade between the two countries that has shrunk by 50 percent during the depression.

Secretary Hull, while giving no official answer to the German suggestion that various German manufacturers be exchanged for American raw materials, made known that he considered bartering agreements a possible hindrance rather than aid to restoring world trade.

**Trade Agreements**  
Reciprocal trade agreements, re-arranging tariff barriers, Hull explained, are designed to cope with the entire world-wide situation rather than act as a temporary corrective in any specified area. A narrow policy confined to evenly balancing trade between two nations, he asserted, was the most direct road to economic "hell bent to commit economic suicide."

He added he would not believe that nations would deliberately go "crazy."

Meanwhile, Matthew Woll, vice president of the American Federation of Labor, speaking under the auspices of the United Textile Workers, declared in a radio address that international bankers and those who control the sugar and tobacco lands of Cuba are the real beneficiaries of the recently concluded trade agreement with Cuba.

Asserting that the Roosevelt administration is making reciprocal agreements which will throw the products of cheap labor abroad against products manufactured under the NRA here, Woll demanded that such products be barred from this country. He asked that all Americans refuse to purchase products other than the products of American labor.

"American labor," Woll said, "believes in giving preference to our own domestic purchasing power."

The opening of negotiations with Spain will bring to three the number of trade pacts so far projected in Europe. Eight others are completed or under negotiation in Latin America.

**PLANE CRASH VICTIMS**  
Baltimore, Sept. 17.—(P)—James Yount, a pilot, and Charles Maurer, 24-year-old Baltimore aviation student, were killed today in a plane crash near Catonsville, a suburb.

## ALFRED SMITH WILL SUPPORT GOV. LEHMAN

## Former Governor To Make Addresses This Fall

**By Francis A. Jamieson**  
Associated Press Staff Writer  
New York, Sept. 17.—(P)—Alfred E. Smith—faced with the unpleasant task of choosing between two intimate friends—was tonight reported in authoritative quarters to have decided to back Governor Herbert H. Lehman for re-election against Robert Moses, who is apparently assured of the Republican nomination.

Smith, who joined with President Roosevelt in forcing Lehman's nomination by the Democrats two years ago over Tammany Hall's opposition, is understood to have decided to adhere to his reported plan to make at least two addresses in the fall campaign for the governor.

Moses, selected by the "Old Guard" committee of 400 organized with the apparent object of blocking State Chairman W. Kingsland Macy's drive to force nomination of Samuel Seabury, an independent Democrat, and Smith became close friends when the former was secretary of state under Smith, then governor.

Unlike former Governor Smith, Mayor Fiorello H. La Guardia—the first fusion mayor since 1914—is expected to back Moses, his park commission. Until the "Old Guard" announced last night it had selected Moses as its candidate for the nomination, the mayor, a Republican, was expected to support Governor Lehman, who fought for his charter revision program.

Moses told the "Old Guard" of his willingness to make the race if nominated by the Republican convention on September 27 and 28.

If Moses is nominated the impending gubernatorial campaign will bring two members of the Jewish race into opposition for the governorship for the first time in the history of the state.

## THREE MINOR PARTIES WILL BE ON BALLOT

## Receive Approval By State Certifying Board

Springfield, Ill., Sept. 17.—(P)—On the last day that minor parties and independents were permitted to file for the state election Nov. 6, candidates for three parties today received approval by the certifying board.

Those who met requirements were: National Progressive party, Communist party, Prohibition party.

An application of the Socialist-Labor party for a place on the ballot was adjudged defective because the proposed ticket failed to name a full slate as required.

The board took under consideration the cases of E. C. Hunter, Rockford, who filed a petition as an independent candidate for the state legislature, and of Clarence S. Trevor, Moline, who made a similar petition.

The board said that each of the independent's petitions was defective in part, but that it was considering in executive session what disposal to make of the cases.

The ticket filed by the Communist party consisted of S. T. Hammersmark, Chicago, nominee for state treasurer; Romana Ferguson, Chicago, superintendent of public instruction; Laverne Truett, Pana, and Carl Lochner, Chicago, Congressmen-at-large; George Lee, Collinsville, Peter Greenlimb, Chicago, S. Lisitz, Chicago, for trustees of the University of Illinois.

The Socialist-Labor list failed to give nominees for University trustees.

## MORRO CASTLE FIRE DRILLS NOT REGULAR

## Members Of Crew Give Testimony At Inquiry

**By R. H. Hipelheuser**  
Associated Press Staff Writer  
New York, Sept. 17.—(P)—The startling information that William F. Warrms, in command of the Ward Liner Morro Castle when fire destroyed her off the Jersey Coast with a loss of 132 lives, was penalized in 1926 for failure to hold fire drills on another Ward ship was shown today by records of the steamboat inspection service.

Warrms' license was suspended 10 days. The Ward line, he testified today, discharged him from command of the ship, the Yumurti, after the suspension.

Opening the second week of the Department of Commerce inquiry into the disaster, Dickerson N. Hoover, head of the inspection service, said Warrms and other officers of the Morro Castle would be recalled for further questioning.

Members of the crew have testified in this inquiry that fire drills were not regularly attended by all of the Morro Castle seamen.

**Crew Complaints**  
Members of the crew of the Steamship Yumurti, then in command of Warrms, complained to the steamboat inspection service in April, 1926, that the master did not hold fire on boat drills, as required by law, between February 26 and March 26. Regulations require such drills once a week.

At the offices of the Ward line no comment was forthcoming on the disclosure.

Warrms took over command of the Morro Castle after the sudden death of Captain Robert Willmott, several hours before the holocaust.

With another steady stream of survivors filing to the witness chair in the department of commerce inquiry, Martin C. Conboy, United States attorney, gave to the federal grand jury the photographic copy of a private bell log of the engine room compiled by a cadet engineer, William Tripp.

Tripp has been subpoenaed to appear later.

Representative Samuel Dickstein of the congressional committee investigating the disaster jumped into the Morro Castle's wake of death with a third inquiry.

Although none of the testimony at the Hoover inquiry laid blame for the fire on communists, the New York congressman said he would delve into the testimony to see if there was any evidence of a communist plot to destroy the Morro Castle.

Testimony before Hoover's board today showed dissension among members of the crew and a mass of confusing statements about the fire bulkheads on the ship, designed to isolate a fire at its point of origin.

Hoover was persistent in his questioning about the fire doors on the liner.

## Germany's Relations With American Aviation Concern Read Into Committee Record

**By Sam Bledsoe**  
Washington, Sept. 17.—(P)—A strong determination by Germany to circumvent treaty restrictions and re-arm in the air was read today by senate munitions investigators into the story of her relations with an American aviation concern.

Senator Nye (R-ND), chairman of the committee, informed that Germany's effort to build up her aviation strength had the support of subsidiaries of United Aircraft and Transport corporation, a dominant American air company.

Company representatives conceded that sales to German concerns had skyrocketed, but instead the engines and other materials were "for commercial purposes only."

Chicago, Sept. 17.—(P)—Massed thousands showed in the Exposition grounds on Chicago's lake front today and tonight for colorful Constitution Day ceremonies and attendance records at the 1934 edition of the World's Fair toppled.

The chief attraction of the constitution ceremonies was an address by the Missouri Democrat, former Senator James A. Reed of Kansas City who lashed out with his typical oratory in an attack on the New Deal and all persons who sought to override the supreme law of the land—the constitution.

The day was made a bargain day at the fair and about 350,000 persons took advantage of the prices that gave them admission to the fair and concession at a fraction of the usual cost.

**Fences Crushed**  
At 9 p. m., fair officials said 353,538 persons were on the grounds and still they poured in. So great was the crush that persons trudged through flag-decked streets at snail's pace; scores of extra police were called; portions of fences were crushed; several persons fainted and a few minor injuries were reported. Before the gates closed it was expected the attendance figure of 377,004 set Sept. 3, 1933 might be broken. The highest single day attendance this year previously was 214,119 on Aug. 26.

Col. Hanford McNider, former assistant secretary of war, was presented to the crowds and introduced former Senator Reed. The other principal speaker was Otis F. Glenn, former senator from Illinois.

Reed charged that the New Deal was a paternalistic violation of the constitution, that the "schemes" of Secretary of Agriculture Wallace would reduce the farmer to serfdom and that the NRA might prove a two-edged sword which would sever the laborer from his liberty.

Forcing a citizen to surrender his gold for paper money, Reed asserted, was a more severe crime than highway robbery.

Declaring that "paternalism is the keystone of the arch of despotism," Reed said that the checks and balances by which the framers of the constitution intended to prevent paternalism were being nullified by the surrender of the legislative and judicial branches.

Former Senator Glenn also charged violation of the constitution by the New Deal administrators.

He cited cancellation of contracts without hearing, the confiscation of privately owned gold and the declaration of mortgage moratoriums in various states as "contrary to the spirit, at least, of the constitution."

Glenn charged that there has been a steady and persistent drive to take away power from the states and concentrate it in the federal government. The offenders, he said, have been of both political parties.

Hailing the constitution as a bulwark against infringement on the right of free speech and the freedom of the press, Glenn pointed to Germany, Russia and Italy as nations where these privileges were denied.

## JOBLESS HOME OWNERS WILL RECEIVE LOANS

## Misunderstanding Has Caused Rejections In Illinois

Washington, Sept. 17.—(P)—Paul Frizzell, assistant general manager in charge of middlewestern states for the Home Owners' Loan Corporation, said today a "general misunderstanding" had caused a widespread rejection of loan applications of jobless Illinois citizens.

Discussing a letter in which Representative Dirksen, (R., Ill.), said such rejections were causing "nervous-racking despair of hundreds of home owners in Illinois," Frizzell said he had already written Henry Zander, state manager and district chiefs of the state calling their attention to their obvious misreading of a corporation bulletin which explained who could receive loans.

Dirksen complained that Illinois district managers were rejecting the applications of all unemployed home owners unless they could secure co-signers. This, he said, was difficult because few wished to act as co-signers on a note that runs for 20 years.

"While the home owners might have employment," said Dirksen, "and still be in distress, the real distress cases are those who cannot find work anywhere and who, because of lack of employment have been unable to pay their building and loan installments. Under the ruling that such jobless home owners cannot procure loans, I assure that irrespective of the adequacy of the security of the property, they will henceforth be denied loans, assuming of course that they cannot secure a co-signer of the note."

"If this is the proper interpretation of the new regulation, why does not the loan corporation make public announcement of the fact so that applicants will be spared the time and expense attendant upon obtaining their loans?"

"We can't very well draw a sharp line between the unemployed eligible for loans and those not," he said.

"But under the date of September 11 I wrote Mr. Zander and district heads calling their attention to complaints we were receiving, and explaining that applicants of responsible citizens temporarily unemployed because of present economic conditions, were to be treated as ordinary cases. On the other hand, the cases where the resident has shown no disposition to seek employment in the past nor in the present are to be rejected."

The decision as to which is which is left in the hands of the managers. There should be no difficulty for them to determine the worthiness of an applicant even though he has no present or immediate prospect of employment. They surely recognize that responsibility exists despite adverse economic conditions."

Frizzell said he was well satisfied, otherwise, with the Illinois administration of the Home Owners' Loan Corporation.

During last July, he continued, "more than 3,300 loans were made, an increase of 44 per cent over any preceding month; and during August, more than 6,500 loans were completed, an increase of 100 per cent."

"We had hopes of even topping that this month, but there are fewer working days and quite a few Jewish holidays, the latter affecting quite a number of our personnel."

"Nevertheless, Mr. Zander informs me that every reasonable effort is being made to give Illinois the sort of relief congress intended."

## FOUR CORNERED PRIMARY FIGHT IN WISCONSIN

## New Progressive Party Will Undergo First Test Today

Milwaukee, Wis., Sept. 17.—(P)—Measured by the extent to which it can attract followers from the Democratic and Republican ranks, the new Progressive party, molded by LaFollette political influence in Wisconsin, will undergo its first test of strength in the statewide primary election tomorrow.

Outside of the comparative voting ability of the principals in the four cornered battle between Democrats, Republicans, Progressives and Socialists the outstanding issue in the contests is whether Democratic Governor A. G. Schmedeman will be re-nominated for another term.

Schmedeman's leading opponent is William B. Rubin of Milwaukee, an attorney and self-styled ultra-liberal who accuses the governor of being a reactionary.

The outcome of the Schmedeman-Rubin fight is awaited for its possible effect upon the general election results in November. If Rubin wins it will be over the protest of the Democratic state organization.

Philip P. LaFollette, Progressive candidate for governor is conceded victory by his only opponent, Henry O. Meisel, Waukesha motorcycle policeman and U. S. Senator Robert M. LaFollette Jr., new party candidate for re-election has no opposition for the nomination.

The Progressives, however, have campaigned vigorously for what they hope will be a predominant share of the primary votes.

The Democratic party, now in power in Wisconsin for the first time in 40 years has presented a solid front except for the internal assault by Rubin.

Republicans, hoping for farm support have three candidates for governor: Howard T. Greene, Genesee depot dairy farmer, who carries a convention endorsement; James N. Tipton, of Omro, and former Governor Fred Zimmerman, of Milwaukee. The Republican senatorial candidate, John B. Chapple, Ashland editor is unopposed.

All were destroyed.

Grant Jackson, president of the bank, reported he and his wife had lost "about everything."

Famed throughout the north for its gold mining, Nome is a small city near Cape Nome, on the southern shore of the seaward peninsula. In 1900, its population was 12,488, but in recent years it has declined to about 1,500.

It was the northwest terminus of the U. S. military telegraph for many years.

Gold was first found there in June, 1898, and Oct. 18, 1898, the Cape Nome mining district was organized. The postoffice was established in June, 1899, and the town incorporated on April 9, 1901.

## Reasons For Drouth

Rev. L. M. Birkhead, a Kansas City  
minister, spent his vacation gather-  
ing midwesterners' opinions as to  
what caused the drouth. He found  
that 75 percent of the reasons in-  
dicated a belief in miracles. Most of  
the farmers, ministers, scientists,  
pseudo scientists and ordinary citi-  
zens credited the drouth to divine  
wrath, stating that the country is  
being punished for one sin or another.

The sins which the drouth avenged  
range from harboring communists  
through cutting crop production and re-  
pealing prohibition to adopting mod-  
ernistic religious beliefs. It was the  
opinion of many that God has been  
punishing a recalcitrant people, and  
that only a reformation will ease the  
scourge.

Then there were those who blamed  
the radio and contended that radio  
broadcasting should be discontinued  
in the summer time. To these people  
it may be said that there have been  
no radios in the Sahara and Gobi  
deserts as far back as historical  
records run. Others pointed out that  
motor cars, giving off deadly mon-  
oxide gas, have dried the air and  
made rain next to impossible. Again  
we can say there were no motor cars  
in the deserts for thousands of years,  
and those that have been there in  
recent years have not appreciably in-  
creased the aridity.

Some of the people interviewed  
thought the sun spots created a belt  
of intense heat across the United  
States and drove out the moisture. In  
that explanation there is some logic,  
tho it has not been fully proved.  
Another rather logical reason given  
was that drouths move in cycles,  
along with wet weather, storms, heat  
and cold waves, and that nothing can  
be done about them.

## Save Preparedness Plants

Aside from the foreign diplomatic  
complications it may cause, the Senate  
armament investigation may bring  
bad consequences for our own coun-  
try. The plan of the Senate com-  
mittee seems to be to bring our  
munitions and armament manufac-  
turers into disgrace and to ruin their  
peace time business abroad.

Unpleasant as that business may  
seem to lovers of peace, it is highly  
essential to the safety of a country  
which must exist in a world such as  
we find today. These factories must  
be kept efficient and able to deliver at  
capacity, so that when war comes,  
this country will not be dependent on  
allied nations to arm its soldiers and  
provide its aviators with planes.

It cost the United States a billion  
dollars to build airplane factories dur-  
ing the world war, and yet not one  
American plane flew in action at the  
front. Our infantrymen in the  
trenches were armed with English  
rifles; our artillerymen fired French  
and British cannon, because our  
factories could not produce arms soon  
enough or fast enough to supply our  
armies.

Peace time orders from abroad keep  
munitions factories in this country  
going and enable armours to pro-  
vide the best manufacturing equip-  
ment. Any blacksmith could fashion  
a spear; but it takes skill to produce  
machine guns, range-finders, anti-  
aircraft guns and war planes. That  
skill and the machinery to turn out  
the arms must be ready in advance or  
time and money will be lost in pro-  
ducing war supplies.

## France Has It, Too

The mayors of thirteen French  
towns in the Rhone department have  
threatened to resign en masse if the  
Paris government does not take some  
measures for unemployment relief in  
their province. The situation has  
grown acute with the collapse of the  
French silk industry. Altho the de-  
pression is late in coming to France,

it has come, and we see things hap-  
pening that remind us of home.

The mayors claim that they have  
taxed their people to the limit to  
care for relief and they cannot do  
more without crippling their regular  
functions of government; they refuse  
to burden the people further with  
taxes. They appeal to the central  
government to assume the entire  
burden of unemployment relief and  
to inaugurate a vast, public works  
program to revive business.

What these mayors have yet to  
learn is that both types of relief  
they are suggesting cost money, and  
that the money must come from the  
pockets of the people, including those  
who live in their own towns. We are  
trying out both plans in this country,  
and thus far we have found that re-  
lief costs must be paid by somebody.

It looked for a time as if France  
would escape the depression, but ap-  
parently no country is to escape the  
epidemic of economic distress. France  
will have to find her own way out,  
if indeed there is any logical way out.

## The Meaning of Liberalism

No term has been subjected to  
greater misinterpretation in recent  
years than the ancient and honorable  
word "Liberalism." A multitude of  
men, some holding official positions  
of great importance, have used it to  
justify attempts to foist foreign  
theories of government upon our  
people, to restrict their liberties and  
their rights, and to excuse political  
quackery of the worst type.

In truth, Liberalism is best ex-  
emplified in fundamental Americanism—  
old-fashioned Americanism. Constitu-  
tionalism. The genuine Liberal strives  
to free the people, not to bind them  
with the chains of bureaucracy. He  
seeks to give them the widest possi-  
ble scope for their abilities, not to  
restrict them with laws and pro-  
nouncements. The right to work, to  
save, to own property and have it  
protected by the government, to pre-  
pare for one's old age, to assure the  
welfare of dependents—these are  
tenets of real Liberalism, Constitu-  
tionalism.

Throughout the world we have wit-  
nessed what happens to great nations  
when this type of Liberalism is  
crushed beneath the iron heel of bu-  
reaucratic dictatorships. Germany,  
Russia, Italy—here are prime  
examples of what political "isms" can  
do to a people. Free speech, freedom  
of the press, freedom of action,  
liberty—all are outlawed and punish-  
able offenses. If it were possible,  
freedom of thought would receive the  
same treatment.

The American people should hold  
tightly to their constitutional heritage  
—it has been tested by the years, and  
has been found good. If the people  
fail to do this, all that our forefathers  
gave to us will be destroyed.

## Views of The Press

## Going To School

From The Macomb Journal  
Even in the pinch of hard times  
Americans have a thought for the  
unfortunate and when appealed to,  
come to the rescue.

Thanks to the generosity of hun-  
dreds of her friends and well-wishers  
who have never seen her, little Helen  
Siefert of Bridgeport, Neb., is going  
to school to learn to converse in spite  
of her afflictions. She is both blind  
and a deaf mute.

Nebraska did not have a state in-  
stitution where she could be taught.  
Helen Keller was said to and she  
referred the matter to the American  
Foundation for the Blind which sug-  
gested that the little seven-year old  
girl be sent to the Perkins institu-  
tion at Watertown, Mass. But funds  
were required to take care of this  
problem, newspapers issued an appeal  
to the public. The appeal was promp-  
tly answered. Out of this drouth-rid-  
den section of Nebraska dollars and  
pennies grew into a fund of more  
than \$2,000, enough to give this un-  
fortunate child as much opportunity  
as can be given her.

It is encouraging in these times to  
read of such charitable generosity.

## SO THEY SAY

We certainly are in one hell of a  
business, where a fellow has to wish  
for trouble so as to make a living.  
—Frank Sheridan Jones, munitions  
agent.

Take our own government in Wash-  
ington today. You will find in prac-  
tically every branch an able, con-  
scientious woman who really runs the

The New Deal  
in Washington

Fame Beckons Gov. Winant,  
Man of Hour in Strike . . .  
Blind to Get New "Talking  
Books" . . . Brazil Keeps Up  
With the Joneses.

During the absence on vacation of  
Rodney Dutcher, Journal-Courier  
Washington correspondent, Willis  
Thornton will write the daily  
Washington column.

Washington, Sept. 17.—Among the  
byproducts of big strikes are big men.  
Calvin Coolidge, for instance, was a  
Local Worthy until the Boston police  
strike. After that he was a National  
Figure.

John Gilbert Winant is in some-  
thing of that same position today. If,  
as chairman of the special board  
wrestling with the textile strike, Win-  
ant emerges with a constructive and  
valuable settlement, he will be a Na-  
tional Figure instead of just the gov-  
ernor of New Hampshire.

Political wiseacres here agree that  
Governor Winant has everything it  
takes to make him such a figure ex-  
cept the event that will thrust him  
into the public consciousness.

He is a tall, somber man of 45, who,  
without exactly looking like Lincoln,  
makes people think of the Emancipa-  
tor. He is a progressive Republican of  
the sort who are practically New  
Dealers without the label.

Though he was close to President  
Hoover, and is a wealthy oil man, his  
administrations in New Hampshire  
have well qualified him to be head of  
of the textile board.

A year and a half ago, he persuaded  
his rural New Hampshire legislature  
that the farm could not prosper with-  
out good factory wages, and got  
through a minimum wage bill that has  
since been embodied in an interstate  
compact signed by five New England  
states: New York, and Pennsylvania.  
He did an excellent job with the CWA  
in New Hampshire, making something  
really constructive out of it.

Though governor of New Hamp-  
shire, Winant is no Coolidge. In fact,  
he's a born New Yorker, who emigra-  
ted later to the north. But he served  
three terms in the legislature up  
there, and three as governor.

He went into the AEF as a private,  
and later commanded three different  
aero squadrons on the French front.

Winant is not a strong speaker, but  
he is apt to say something when he  
does speak. His future as a Republi-  
can depends on whether his party  
turns definitely reactionary or mildly  
progressive.

It will be nil in the former case,  
bright in the latter. And his na-  
tional future (for which he disclaims  
any desire) may well depend on the  
outcome of his handling of the textile  
strike situation.

## "Talking Books" for Blind

The Library of Congress is prepar-  
ing to distribute "talking books" on  
phonograph records to branch libraries  
which carry Braille books. Only one-  
fourth of the blind read Braille.

The first three books to be thus dis-  
tributed will be novels—Masefield's  
"Bird of Dawn," Carroll's "As the  
Earth Turns" and Deafield's "Diary  
of a Provincial Lady." Relief Di-  
rector Harry Hopkins got a laugh out  
of the fact that his brother is running  
for coroner out in Tacoma, Wash., on  
the Republican ticket. . . . Though  
the District of Columbia has been  
here a long time, they're still arguing  
over its boundaries. Both the District  
and Virginia claim a small piece of  
land touching the airport just across  
the Potomac from Washington. Con-  
gress has to authorize a special com-  
mission to make the award.

## Brazil "Puts on Dog"

Brazil is converting the well-known  
Robert S. McCormick house into an  
embassy that will compete in grandeur  
with those of many larger countries.  
It's on Massachusetts avenue, and  
marks another secession from what  
used to be "Embassy Row" on Six-  
teenth street.

Washington real estate men are  
rubbing their hands and anticipating  
a real estate boom. They're looking  
for increased demand for homes as  
the government service gradually in-  
creases toward the size of the war-  
time boom days.

## A Forecast on Congress

Long range predictions on the next  
Congress.  
Some kind of central banking legis-  
lation.  
Railroad reorganization legislation.  
Lower liquor taxes.  
Government control for munitions  
manufacture.

This last one is dead certain. Current  
and future revelations of the  
Senate committee will create an ir-  
resistible demand. The committee, if it  
plays its cards, can lam through any  
bill it recommends—even if it de-  
mands government ownership of the  
industry.)

**WILL ROGERS**  
says:

To the Editor of The  
Journal-Courier:  
London, Sept. 17.—Will you please  
tell me what happened at the so-  
called yacht race Saturday? I never  
saw as many conflicting statements  
as in the local papers today. Some say  
the race was in doubt to the last mi-  
nute; some say that cruisers or Roose-  
velt or somebody got in the way of the  
English boat. They say our crew is  
professional and that theirs just work  
for the love of the sea air and that  
ours is not built right below decks.  
Send all particulars to the League of  
Nations and let's get this thing  
straightened out.  
Yours, WILL ROGERS.

\$100 a Month  
Sick Benefit Policy  
at Special Low Cost

For Limited Time Only Policy Sent  
Free For Inspection.

A sick benefit policy paying up to  
\$100 each month in case of any ill-  
ness or disease, at less than one-half  
the usual cost, is now being issued by  
the National Protective Insurance Co.,  
nationally famous for its \$3.65 acci-  
dent policy. Men ages 18 to 69 and  
women 18 to 59—in all occupations—  
who are now in good health are eligi-  
ble for this new health policy.

It is now no longer necessary to  
pay \$36 to \$40 a year for full cover-  
age health insurance. Nor is it neces-  
sary to accept a policy covering only  
30 or 40 of the 1800 diseases known  
to medical science.

The National Protective is the only  
company issuing a health policy cov-  
ering any and every disease and pay-  
ing such large benefits at its low cost.  
The present low price, however, can  
be continued only if their new Health  
Policy can be sold in the same large  
volume as their Accident Policy. In  
any event, those who take out the  
Health Policy now are guaranteed the  
present special low cost both the first  
year and every year thereafter.

No medical examination or other red  
tape. If you are now in good health,  
simply send name, age, address and  
sex to National Protective Insurance  
Company, 3108 Pickwick Bldg., Kan-  
sas City, Mo. Read the Health Policy

obligation or send the small payment  
to put policy in force for an extra  
long period. Write the National Pro-

## Tigers Take First Game Of Important Series from Yanks By Score of Three to Nothing

Detroit, Sept. 17.—(P)—With 36,211 see more players reporting. Among Pennant hungry fans crowding every available space in Navin Field, Alvin Crowder, veteran Washington cast-off, today shut out the New York Yankees with six scattered hits as the league leading Detroit Tigers took the first of their four-game engagement 3 to 0 to increase their advantage to six and one-half games.

Crowder, pitching the second complete game he has turned in since joining the Tigers two months ago, worked smoothly and without a tight situation. Three of the Yankees hits were infield blows, while another, Tony Lazzeri's double in the 9th, was a fly ball into the overflood crowd in center field, which Jo-Jo White would have caught under ordinary playing conditions.

## BLUEBOYS TO WORK OUT TWICE TODAY

Entire Squad Called Out For Morning Work-Out—Upper Classmen Will Have Their Double Shift This Afternoon.

Still hustling along, the Illinois College football team will return to the practice field today for a double session, the first at nine o'clock this morning for the entire squad and this afternoon for upper classmen. Coach Ray Nussipickel put the boys through their first scrimmage yesterday, stressing fundamentals throughout the day, which saw the entire squad working in the morning drill and a somewhat reduced squad during the afternoon work-out.

Following out the plan of last year, all work-outs are being held on Russell field to preserve the field at the college for games. Football goal posts will be installed on practice field today.

Additional veterans and freshmen enrolled yesterday, and the final day of registration today is expected to see the veterans who arrived yesterday were John Novicki, guard, from Barton, and Roy Colin, end from Granite City.

Scrimmage was meted out during both sessions yesterday in light doses, with an offensive line and backfield working against a defensive line. That Coach Nussipickel is planning a revision of the personnel was evident in two work-outs yesterday. Bob Miller moving from center to a wing position. Lou Davis, regular center who was rejected the first and second time he attempted to pass the physical examination, was given an okay yesterday, along with several others who were marked as questionable.

## BURNS LOOKS OVER GRID CANDIDATES

18 Boys Show Up For First Practice And Dozen More Arrive From Chicago Last Night to Join Squad Today.

Footballically speaking, things could look a lot better for the Illinois School for the Deaf, Coach S. Robey Burns found yesterday when he looked over 18 gridders who reported for the first Tiger work-out. An even dozen more rolled into the city last night from Chicago, where they have been spending the summer with their parents.

The Tiger coach was given a severe setback early this year when the I. H. S. A., governing body of sports for high schools in this state, passed a ruling which made all students at the school eligible for athletics at the age of 15 years, which also made them ineligible after they have passed their 19th birthday. The rule removed all but three lads who were under training last year, and forced the Tiger coach to seek new and untried material for this year's squad.

Practice sessions will be held once daily until school opens next Monday. The thirty boys, who are in camp now, are working in the buildings at the school, getting them ready for the opening day and paying for their board and room by waxing floors, cleaning windows, and sweeping rooms.

Coach Burns is getting his team ready for the opening game with Selkirk, Ill., on the Quincy field Friday night Sept. 28, and he is putting a lot of hustle in the practice sessions. The Tigers have ended one of their heaviest schedules, which is as follows:

Sept. 28—At Quincy, H. S.  
Oct. 6—At Cathedral, Springfield.  
Oct. 12—St. Teresa, Decatur, here.  
Oct. 19 or 20—Trinity, Bloomington, here.  
Oct. 28—Routt.  
Nov. 2—Wisconsin S. D. here.  
Nov. 9—Clinton, here.  
Nov. 17—At Peoria Central.  
Nov. 24—At Missouri S. D.

But as Forbes broke the deadlock in Ross' favor, so did Donovan tonight swing the issue the other way with a vote for the Irishman that continued the amazing string of failures of welterweight champions to win a first title defense, now standing at eleven straight. No welterweight champion from the time of Pete Latzo has been able to ward off his first challenger.

The battle was so close that Shortell gave McLarnin six rounds, Ross five and called four even; Lynch gave Ross seven, McLarnin six and called two even. Donovan alone saw a really decisive margin either way. He gave McLarnin ten rounds and Ross five.

The Associated Press score card made it equally close, but returned the same vote as Lynch for Ross—seven for the defending champion, six McLarnin, and two even. Of thirteen critics around the ringside, ten had Ross winning by margins of from one to four rounds, while only three agreed with Donovan that McLarnin had won.

Rarely has a major battle been so desperately fought, yet so close, so shifting in the tides of favor, so even in the punishment that both took wholesale and unflinching. Only once did the low blow menace that cost McLarnin half a dozen rounds in the first duel in May pop up, and again it took one round from his count, the fifth, when a left hook smashes into low territory.

Absolutely disdainful of McLarnin's furious right hand smash, the punch that has been flattening the best fighters in every class from bantamweights through welters, over the past fourteen years, Ross made it the slugging fight he had promised.

McLarnin's victory prolonged the steadily growing impression that his Garden ring bowl is no place for a champion. In orderly procession, Max Schmeling, Jack Sharkey, McLarnin, Primo Carnera, and now Ross have lost their titles here with the lists now closed for this outdoor season.

Roadhouse, Sept. 17.—(Special)—Roadhouse high, where the Illinois Valley championship has rested for the last two years, is going to have to depend on one of its lightest and least experienced teams this year it has had since Coach Foster Keagle began bringing up eleven which have lost but mighty few games. Keagle lost two out of four games off last year's championship team, and has back only two of the linemen that he well known team.

However, Coach Keagle is not expecting to win a title this year. He is waiting to be shown at present, and he has a squad of boys who are eager to show him that championships grow on bushes when Roadhouse goes out to pick them. Keagle is working on the law of averages, declaring that Roadhouse has been due to get a licking for some time, and that this looks like the year when some of their foes are going to take them for a buggy ride.

Just who is going to knock them off remains to be seen. Keagle gave his boys almost a month to get in shape for their first game with Collinsville, which is not in the conference, and then another week to get ready for their first Ivy opponent. And Roadhouse's opponent better realize on the opportunity to be presented this year, he declares, because only two boys will graduate from this year's team. They are Johnny Stowe, a guard who has been playing for four years, and Carl Petrey, who quarterbacked some last year and will continue in that work this year.

Keagle is revamping his squad somewhat this year by bringing up Keith Ballard, who played fullback last year, to a tackle position where his 180 pounds will be felt more times than they were in the backfield. He

## Jimmy McLarnin Beats Barney Ross and Climbs Back on His Welterweight Boxing Throne

Madison Square Garden Bowl, New York, Sept. 17.—(P)—Jimmy McLarnin, greatest Irish warrior of his day, climbed back on his welterweight throne tonight, battering back the savage gameness of little Barney Ross, his one-time conqueror, in fifteen fierce, controversial rounds.

He came back as he left the throne room three months ago—a split decision of two judges and a referee— amid a storm of boos of protest that flooded down on the ring like the rain that forced four postponements of the battle over the past seven days.

It seemed to a majority of the experts around the ringside, and certainly to the scant crowd of about 25,000 sitting under a dark and foreboding sky, that little Barney, first met ever to hold both the lightweight and welterweight titles, at least earned a draw in the dazzling duel that shifted first in one direction, then in the other, then back and forth again through the entire fifteen blistering rounds.

There were no knockdowns, although McLarnin, his left eye completely closed, his nose trickling blood, his lips split, slipped twice in the fifteenth round from sheer weariness. He never went all the way down either time. Ross, taking more of the Irishman's right hand smashes than any other warrior ever did and surviving equally battered, with his own left eye half closed, his right cut and his lips as badly cut as McLarnin's.

At the close, as they hung on each other, punch sodden and all but helpless, Tommy Shortell, one of the judges, cast his vote for McLarnin, Charlie Lynch, the other judge, bailed for Ross, leaving the issue up to Arthur Donovan, the referee. Three months ago, at the close of their first match, two other judges had forced a similar decision upon Eddie Forbes, another referee.

But as Forbes broke the deadlock in Ross' favor, so did Donovan tonight swing the issue the other way with a vote for the Irishman that continued the amazing string of failures of welterweight champions to win a first title defense, now standing at eleven straight. No welterweight champion from the time of Pete Latzo has been able to ward off his first challenger.

## SENATORS SMOTHER INDIANS 13 TO 6

Cleveland, Sept. 17.—(P)—With only three regulars in the line-up and with an 18-year old sand lot recruit pitching, Washington's crippled Senators today trounced the Cleveland Indians 13 to 6 in the opener of a five-game series.

Pounding four pitchers for 21 hits, the Senators never held less than a five-run lead as counted five times in the first inning and broke into the victory column after four straight setbacks at Detroit.

Reese Diggs, a product of the Baltimore amateur ranks, held the Indians to eight hits, including Earl Averill's 28th home run of the year and another four-sacker by Bob Weiland.

## Big Blue English Challenger Administers An Unexpected Beating to Defending Sloop

By Alan Gould.  
Associated Press Sports Editor.  
Newport, R. I., Sept. 17.—(P)—In one of the swiftest and most dramatic races ever waged for the famous America's Cup, the big blue challenger from England, T. O. M. Sopwith's Endeavour, overcame a succession of sail-hoisting difficulties today and administered an unexpected but sound beating to the defending sloop, Harold S. Vanderbilt's Rainbow.

The box score:

Endeavour demonstrated conclusively she is a speedier heavy weather craft, completely reversed her sorry showing in Saturday's drifting match that would up "no contests" and today was one up in the first conclusive test of the 1934 series. The British lion was roaring full-throated defiance to American sea supremacy for the first time since 1920.

After chasing the Rainbow over the outgoing half of the 30-mile windward-leeward course through heavy seas and rian squalls, Endeavour overtook the defender at the outset of the run home, with a fairly startling burst of speed under impetus of a unique ventilated or "Anne Oakley" Spinnaker.

For the first time since the start, Sopwith looked Vanderbilt squarely in the eye, then forged quickly into the lead and left the defending loop struggling a desperate but decisively beaten boat over the closing 15 miles.

Endeavour's margin of victory at the finish was nearly a half mile, exactly two minutes and nine seconds on time, the challenger came from behind to capitalize her swiftness before a wind that shifted from a brisk 14 knots to about 10 at the finish.

The winner's elapsed time of three hours, 43 minutes, 44 seconds, was approximately 19 minutes short of the America's Cup record for a similar course, despite the fact that both boats surpassed the former mark for a 15-mile windward leg, with a stiffer breeze blowing. Rainbow's time was 3:45:53.

Rainbow, with an elapsed time of 2:04:25 for the first half, where she turned the mark with an 18-second advantage, bettered the former America's Cup record of 2:06:40, set by the American yacht Victory in the third race of the 1893 series against Valkyrie II. Endeavour also was under this record.

As the long blue prow of the British sloop came plunging triumphantly through the heavy seas, an acclamation of cheering whistles and sirens signaled a highly exciting, dramatic switch of Endeavour from the position of "under-dog" to a challenger which now has the advantage of scoring the first victory and the confidence that goes with it in a mighty bid to lift "old mug" from American hands for the first time in yachting history.

It takes four triumphs to capture the cup. Fourteen years ago Sir Thomas Lipton's Shamrock IV won the first two contests of a best three out of five series, only to lose the next three in a row to the defender Resolute. It's too early, therefore, to concede the Briton anything more than what he is entitled to on the basis of today's fine come-back, but American confidence has nevertheless given way to some apprehension. The betting odds have shifted in favor of the challenger.

Endeavour won today's race after giving an exhibition of mainsail-furling just before the start that caused British adherents to lose heart, American experts to wag their heads knowingly and prompt the race committee to declare a 15-minute delay so that Sopwith's semi-amateur crew could untangle twisted halyards and get the big sheet hoisted.

After sending a man aloft in a boat's chair to fix the lines, Endeavour got slightly the worst of the start and was quickly out maneuvered by Vanderbilt in the preliminary sparring. Still trailing, but much in the running as the sloops rounded the outer mark, there was again a tedious delay on the part of Endeavour's crew before the big ventilated spinnaker was adjusted, in.

President Roosevelt, aboard the Nourmahal, Vincent Astor's big yacht, was among those witnessing Endeavour's thrilling victory. The nation's chief executive had a close up of the finish and Nourmahal joined in the noise-making din that marked the conclusion of the race.

Because of the turbulent seas as well as the fact week-end holidays were over, the flotilla accompanying the racers was sharply reduced.

The race tomorrow will be over a 30-mile triangular course, with the start at 10:40 a. m. (E. S. T.).

## Roadhouse to Depend Upon Youngsters For 1934 Team

Roadhouse, Sept. 17.—(Special)—Roadhouse high, where the Illinois Valley championship has rested for the last two years, is going to have to depend on one of its lightest and least experienced teams this year it has had since Coach Foster Keagle began bringing up eleven which have lost but mighty few games. Keagle lost two out of four games off last year's championship team, and has back only two of the linemen that he well known team.

However, Coach Keagle is not expecting to win a title this year. He is waiting to be shown at present, and he has a squad of boys who are eager to show him that championships grow on bushes when Roadhouse goes out to pick them. Keagle is working on the law of averages, declaring that Roadhouse has been due to get a licking for some time, and that this looks like the year when some of their foes are going to take them for a buggy ride.

Just who is going to knock them off remains to be seen. Keagle gave his boys almost a month to get in shape for their first game with Collinsville, which is not in the conference, and then another week to get ready for their first Ivy opponent. And Roadhouse's opponent better realize on the opportunity to be presented this year, he declares, because only two boys will graduate from this year's team. They are Johnny Stowe, a guard who has been playing for four years, and Carl Petrey, who quarterbacked some last year and will continue in that work this year.

Keagle is revamping his squad somewhat this year by bringing up Keith Ballard, who played fullback last year, to a tackle position where his 180 pounds will be felt more times than they were in the backfield. He

## Decatur Man Killed at Close of White Hall Flying Circus

White Hall—A flying circus held here Sunday afternoon by aviators from Decatur, ended in tragedy when Otto Earl Brubeck, 22, Decatur tobacco salesman, was instantly killed at 6:30 o'clock last night by the whirling propeller of one of the planes. Brubeck crawled under the wing of

a cabin plane piloted by Robert Wynette, who was warming up the machine in preparation for flying home. Brubeck's head came in contact with the propeller. His skull was fractured and he was almost scalped. He received a long gash on the back of his neck.

Death was instant. The propeller was shattered by the impact with the man's head. Brubeck's body was removed to the Dawdy Funeral Home where Coroner Russell Shields held an inquest at 9:30 o'clock last night. The jury returned a verdict of accidental death. The body was removed to Decatur at 1 o'clock this morning.

Brubeck had come to White Hall with Wynette and R. W. Schrock from Decatur. The trio brought two planes here for the flying circus. During the day Brubeck had collected tickets from plane passengers. His co-workers in the enterprise could give no reason for Brubeck's action in crawling under the wing of the plane.

## 150 Members Attend Fellowship Supper

Jerseyville—More than one hundred and fifty members of the Jerseyville Methodist church attended the fellowship supper which was held at the church under the auspices of the Official Board of the congregation.

The supper was followed by an entertaining program with Mrs. C. T. Kibler serving as toastmistress. The community singing was led by Peter D. Waal and Fred Peter gave a talk on the general program for the church year. This was followed by a vocal solo by Thomas Bloomer. Miss Mable Ewin, treasurer of the building fund and Miss Josephine Starl, treasurer of the budget fund, gave interesting reports. It was shown that very little has been paid into the building fund for quite some time but under the five year plan will again become active and steps will be taken to cancel as much of the church debt as possible. Miss Stahl reported that \$490 has already been collected in the budget fund since the adoption of the five year plan.

One of the features of the entertainment program was the duet played by George Brown and the one man band. Brown played a selection of the guitar and French harp at the same time. A reading was given by Harold Wayham, and the program was concluded by a musical number given by Miss Velma Jane Thatcher and Miss Marguerite Marsden. Miss Thatcher sang "The Old Spinning Wheel" and Miss Marsden played the flute obligato. They were accompanied at the piano by Mrs. L. R. Thatcher.

Franklin of Nebo, Pike county as director of farm organization activities in the district. ## "SUBSTANCE" THEME OF LESSON-SERMON

"Substance" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, September 16.

The Golden Text was, "My God shall supply all our need according to his riches in glory by Christ Jesus" (Philippians 4:19).

Among the citations which comprised the Lesson-Sermon was the following from the Bible "Now faith is the substance of things hoped for, the evidence of things not seen. Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear" (Hebrews 11:1, 3).

The Lesson-Sermon also included the following passages from the Christian Science textbook "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Substance is that which is eternal and incapable of disorder and decay. Truth, Life and Love are substance, as the Scriptures use this word in Hebrew: 'The substance of things hoped for, the evidence of things not seen.' Spirit, the synonym of Mind, Soul, or God is the only real substance" (p. 468).

These Coats are featured at \$22.50 and \$20.00. Suits carry on, with rough fabrics the predominating feature for fall.

Popular Patterns are both shepherd and gun club checks, while there is a comparative sudden vogue for overplaids which may be either of a darker color than the suit or of a contrasting color.

The Sport Coat with pleated back, and the double breasted, are the two leading models for fall.

Popular Prices from \$24.50 to \$16.75

Heatherland Mixtures lead the field in Hats. New finishes, roughly soft, are the vogue, in keeping with the rugged homespun and tweeds being worn in suits and topcoats. Blended colorings that are attuned to autumn harmonies.

The Important Hat for young men is the dark brown Snap Brim model with either black or dark brown band. Guaranteed quality at \$3.50.

ILLINI GIVEN  
DOUBLE DRILL

Champaign, Ill., Sept. 17.—(AP)—Constant experimentation with occupants of the center end and full-back positions today marked the renewal of University of Illinois football practice on a twice daily basis. Signal drills comprised the major part of the Illini operations, although an hour and a half of scrimmaging was sandwiched in at the morning session. The last double practice will be held tomorrow.

Coach Bob Zuppke constantly shifted his lineups but at the end of the day had settled upon a combination manned by Bart Cummings and Gene Dykstra, ends; Chuck Galbreath and Arvo Anttila, tackles; Chuck Benis and Ed Gryboski, guards; George Frederick, center; Jack Beynon, quarterback; Frank Proschauer and Les Lindgren, halfbacks, and John Theodore, fullback.

Ken Nelson, Bob Wright, Bill Waller, and Vin Van Meter came in for their share of attention in juggling the ends. Elvin Sayre and Tom Eastman, a pair of sophomores, were given their chance at the center post during the morning rehearsal. Howie Carson and Johnny Fischer played major roles in the shifting scene at fullback.

The first casualty of the season was Bob Wright, junior candidate for an end position, who suffered an abrasion of a toe infection incurred during the summer, and was not in uniform at the afternoon drill.

Cliff Kuhn, Moseheart, who had been counted on to make a strong bid for an end position until he was declared ineligible last week, has withdrawn from school.

## CAROLINE by RUTH DEWEY GROVES

### CHAPTER XXXVI

The Lady Slipper was a small white inn under towering oaks. Evergreen planted close to the claphouse walls gave it a snug appearance. From the wide brick chimney a cloud of smoke poured into the clear crisp air. Caroline loved the place. They would have a table before the roaring fire—if the little old grandmother in the gray and lavender dress wasn't knitting there, with the big white cat curled up beside her slipped feet.

## W. McCARTY OF CONCORD PASSES AWAY

Well Known Morgan Banker Dies Here—Rites to be Thursday

Walter McCarty, well known Morgan county banker, died Monday afternoon at 5:27 o'clock at Passavant hospital, where he has been a patient for the past 11 days.

Mr. McCarty has been in failing health the past several months, and in July entered a St. Louis hospital for treatment. Later, on account of the extremely hot weather, he was removed to Charlevoix, Michigan, where it was thought the cooler weather would aid toward improved health. About three weeks ago he returned home and entered Passavant hospital for further treatment. Chronic nephritis was the illness that caused his death.

Mr. McCarty was well known throughout Morgan county and central Illinois in banking circles. He has been cashier of the Concord bank since its organization in 1908.

Walter McCarty, son of William L. and Louisa McCarty, was born in Arenzville, June 26, 1878, where he finished school and grew to manhood. He attended college in St. Louis and has been in the banking business since that time, having served in Arenzville, Meredosia, Bluffs and Bath before coming to Concord in 1908.

On February 10, 1915, he was married to Miss Cecile Trainor of Beardstown who survives. There are no children.

Mrs. McCarty has been associated with her husband in the bank for the past 18 years and it is expected she will continue in an executive position in the Concord bank.

Besides his wife, he is survived by four sisters, Mrs. T. M. Coyle and Mrs. J. A. Weeks of Arenzville, Mrs. H. B. Rentschler of Concord and Miss Hazel McCarty of Jacksonville.

One brother, Dr. L. R. McCarty of St. Louis, passed away in 1915. His parents who were prominent Cass county residents have also passed away.

Funeral services will be held at the late home in Concord, Thursday afternoon at 2:30 in charge of Rev. E. E. Maderia, rector of Trinity Episcopal church of Jacksonville.

## MINISTERS ARE ASSIGNED TO CHURCHES

Three Changes Made in M. E. Pastorates Here

Champaign, Ill., Sept. 17.—(P)—The 11th Illinois Methodist annual conference adjourned tonight after approving a lengthy list of new ministerial assignments. About two-thirds of the conference's 560 pastors were assigned to remain in the same pulpits for the coming year and the seven district superintendents were reassigned.

"It has been the hardest task in my years of experience in arranging re-assignments with the cabinet," Bishop F. J. McConnell of New York said.

Re-alignment of salaries and other economic adjustments made necessary by recent depression years caused delay and difficulty in compiling pastorate lists," he said.

Most re-locations were among the smaller churches of the conference, with the Kewanee church largest to receive a new pastor.

The report of the brotherhood sustenance committee was adopted by the conference despite active opposition led by Dr. W. D. Fairchild, Decatur district superintendent, who offered a substitute plan.

The plan as adopted declared that all effective ministers and accepted supplies shall participate in a conference ministerial sustenance program under stipulations requiring pastors to pay from one half of one percent to three percent of their salaries into a fund, according to salary rank.

It was reported that 75 percent of the clergy had signed pledges of support, thus insuring success of the program.

Collections for benevolences, other than world service, for the past year in the conference totaled more than \$153,000, according to the report of Secretary E. H. Sauer, Paxton. World service collections were \$68,000; foreign missions, \$49,000; and home missions, \$30,000.

Total membership, including inactive members, in the Illinois conference was listed at 172,314.

The sale of church properties authorized by the conference included those at Chapel Hill, Pleasant Ridge, Galesburg, Elmhurst, Cherry Point, Chambersville, Jewett, Shiloh and McConnell Chapel.

Instructions were given to trustees to meet with the congregation at Rosamond to decide whether the church there will be continued.

Ten ministers, including Clifford P. Bruner, Rock Island, were advanced to this rank of elder.

Make Assignments

New assignments of ministers in the conference were presented and accepted late this afternoon.

It will be up to ten men to pick the nominee, regardless of what has been said and done in the respective counties. These ten are the county chairmen of the party, who by law are given the right to make the selection.

Has Morgan's Vote

Warren Brockhouse, Democratic chairman of Morgan county, will abide by the action of the local committee and will vote for Hairgrove.

The convention is scheduled for 9:30 a. m. at the Greene county court house, where only a few weeks ago thousands gathered to pay homage to the late Speaker Rainey. Charles Casey of Greene county will preside, being chairman of the district organization.

It was reported here that there will be a session open to the public, but this has not been confirmed. Attorney Hairgrove said the details of the convention are up to the committee and he hasn't been advised whether there will be formal nominating speeches.

Backers of Hairgrove are said to have their eyes fixed on several counties to the west and south. Should Hairgrove receive a vote from the Pike county chairman some believe it probable that Scott, Greene and Calhoun would fall in line.

Vote Based on Election

The vote of each chairman is based on the total vote cast in his county in the last general election. About 20,
